DETAILED ACTION

Response to Amendment

In response to the amendment July 15, 2005 in which the applicant has previously canceled claims 1-14 and 19-23, cancels claim 32, amends claims 15-18, and claims 15-18 and 24-31 are pending in this office action.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicant has amended the claims to be patentably distinct from the prior art. In regarding claims 15-18 the prior does not disclose nor teach a support having a first and second end, where the first end comprising a substantially L-shaped member having a first side connectable with a top of a desktop monitor and a second side connectable with a side of the computer monitor and a contact element connected to the second end of the support, where the contact element is a punching bag in combination with the rest of the claimed limitations. The closest prior art generally discloses a support platform having a first end and second end, where the first end having an adjustable surface with a mounting plate and the other end having a punching bag and not a substantially L-shaped member having a first side connectable with a top of a desktop monitor and a second side connectable with a side of the computer monitor and a contact element connected to the second end of the support in combination with the rest of the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
